# CEM YUKSEL  -  QA Automation Engineer

Izmir, Turkey | +90 (532) 4128228 | fcemyuksel@gmail.com | www.linkedin.com/in/cem-yuksel-47bbb62b

## Summary

Experienced professional with  **5+  years** of expertise in software testing products and web-based applications. Proficient in both automation and manual testing methodologies. Skilled in a wide range of testing technologies, such as Java, Selenium, Cucumber, Test NG, Jira and Postman, as well as manual testing techniques.

## Experience

**JIB GAMES (www.jib.gs/)**                                    **SEPT 2022 – PRESENT**

**Manual & Automation Tester**

· Expertly conducted comprehensive manual testing for the game, with a specific focus on ensuring the highest quality for the web and mobile applications of sanalika.com and oyunstudyosu.com.
· Testing new features, meticulously assessing their compatibility with existing systems, both on the web and mobile platforms, ensuring smooth integration and minimizing disruption to the user experience.
· Collaborated closely with cross-functional teams, including developers, designers, and product managers, to comprehend project requirements, contribute to test case design, and provide timely feedback to enhance product quality.
· Proficiently documented test cases, executed test scripts and tracked software defects.

**KARSIYAKA MUNICIPALITY**                                **JUNE 2018 – MAY 2023**

**QA Manual Tester**

· Collaborated with cross-functional teams to develop comprehensive test plans and strategies, ensuring thorough coverage of all software features and functionalities of the municipality's applications that serve essential public services.
· Collaborated with end-users to facilitate UAT, providing guidance and assistance, and ensuring their feedback was incorporated into the testing process.
· Assisted in the on boarding and training of new team members, sharing knowledge and best practices to promote a culture of learning and growth.
